### CREAM OF NEWS.

IF IT IS NEW AND TRUE THIS COLUMN HAS IT.

Trigg County Fire—Railroad Change—De-  
structive Fires—Stealing Canvass—Die  
in a fit—A Batch of Fines.

Mercer Park's Coming Opening.

Merger Park, on West Seventh street, presents an exciting and cheering scene of hustle, activity and industry. Graders, teamsters, scrapers, brick-masons, hod-carriers, carpenters and laborers, are working with all their might in various portions of the beautiful grounds, in order to get the bicycle track and grand stand ready for use by the 15th inst., if the weather is favorable. All the stir and bustle, however, does not detract from the fact that any of the workers are building a Tower of Babel; on the contrary all is order and regularity, and in a few days the visitors will see a pretty artificial lake, an island at the west end of the park, and a commodious and imposing grand stand, beautifully decorated with gay festoons, streamers, banners and the like of flowers. It will be surprising if the park is not inaugurated with one of the largest crowds that ever assembled in Hopkinsville. Hopkinsville must open herself to entertain her large crowd of visitors, and let the G. A. R. see during their coming the one of the finest bicycle tracks in the State, by far the most elegant and handsomely equipped and conducted hotel in the south.

A Distinguished Woman's Opinion.

Miss Frances Willard says of Leeland Powers, who will close the lecture season at the Tabernacle next week: "We had Leeland Powers. Have you ever heard him? Well, you will, unless you hibernate or emigrate. He comes in full dress upon the stage, and undertakes to make you see the thirteen characters in David Copperfield. Without a bit of scenery or a particle of costuming, he reproduces David, Steerforth, Peggotty, the Micawber, and others, in a way which is simply妙不可言 (magnificent). His changes are completely while you look and listen, that the metamorphosis seems a little less than magical. The great-heartedness of Fishman Peggotty; the manliness of David; the expansive oratory of Wilkins Micawber, all live before your eyes. The good is everywhere held up, and the bad exposed, and Uncle Tom's "maching" diabolism excites the universal moral nausea that it ought. One feels that Mr. Powers has discovered a new field, and one that gives what is good in the drama without its abominations."

Important L. & N. Change.

On about the 20th inst. an important change will be made in the running of trains on the Clarksville & Gracey branch of the L. & N. it is understood. The morning train will leave Clarksville at 7:45, making the round trip about 4 p. m. It will arrive at Gracey about 11 o'clock and leave shortly after 1 o'clock. Thus the present order of things will be broken, and the change will be the ninth "layover" in Clarksville instead of Gracey. The passenger business on this road has been very light for some time, but when the change is made it is believed that this line of the business will be greatly increased. By the new plan better connection will be made with the Ohio Valley, which will make it much better for promenading with business also.

Important L. & N. Change.

On about the 20th inst. an important change will be made in the running of trains on the Clarksville & Gracey branch of the L. & N. it is understood. The morning train will leave Clarksville at 7:45, making the round trip about 4 p. m. It will arrive at Gracey about 11 o'clock and leave shortly after 1 o'clock. Thus the present order of things will be broken, and the change will be the ninth "layover" in Clarksville instead of Gracey. The passenger business on this road has been very light for some time, but when the change is made it is believed that this line of the business will be greatly increased. By the new plan better connection will be made with the Ohio Valley, which will make it much better for promenading with business also.

Nashville Grocery House Assists.

Kirkpatrick & Co., wholesale grocers at Nashville, made a special assignment Saturday night to secure between \$160,000 and \$175,000 of indebtedness, of which New York banks hold \$25,000, Hartford banks \$20,000 and Nashville banks \$49,000. The firm states that the assets assigned will pay the liabilities in full.

Debtors in the credit.

The firm is well known in this city, having sold

large quantities of goods here through their traveling salesmen.

Want to the Wall.

C. A. Cannon, a merchant at Dixie, Webster county, has assigned. Liabilities several thousand dollars, with ample assets, if dollar for dollar could be realized. Mr. Cannon was engaged in business at Sebree for several years, and was quite prosperous while there. The general credit system is said to have caused his recent trouble. Every man who knows Mr. Cannon will regret to hear of his misfortune.

Destructive Forest Fires.

Forest fires last week burned over 3,600 acres of land connected with the Grand Rivers enterprise, 3,000 acres being east of the Cumberland river, and 600 acres being between the rivers. Three old log cabins were burned up and about 600 cords of wood also. The loss will amount to several thousand dollars.

### COMING TUESDAY.

The G. A. R. Encampment of Kentucky Will Come Next Week.

Everything is now in readiness for the G. A. R. meeting next week. The various committees are attending to every detail, and arrangements have been made to decorate the houses along the line of march. This will form at 10 o'clock, with Polk Candler as the officer in charge and the following aides: Mc J. Davis, S. H. Harrison, M. H. Nelson, C. F. Jarrett, M. B. Brown, Jas. Allensworth and Frank Price.

The order of march will be as follows:

Mounted Police.

Band.

Commander in Chief and Staff;

in carriages.

Commander of Dept. and Staff,

in carriages.

City Council and Officers;

in carriages.

Visiting Committees.

Drum Corps.

Confederate Veterans.

Local Postis G. A. R.

Uniform Rank K. of P.

Band.

Relief Corps; in carriages.

Company D., K. S. G.

People's Fire Company.

In the afternoon at 2 o'clock the delegates will meet at Holland's Opera House and transact the business of the day. At night, beginning promptly at 8 o'clock, the citizens will tender an open reception at the tabernacle to the visitors. The program prepared for this occasion is as follows:

Prayer . . . . . Chaplain D. F. Kerr.

Address of Welcome . . . Mayor F. W. Dabney.

Response . . . . . Department Commander D. O'Riley.

Music . . . . . Band.

Address . . . . . Commander in Chief.

Toast . . . . . G. Lawyer.

Chorus, National Hymn . . . . . Public School Children.

Address . . . . . Ex-Confederate.

Music . . . . . Band.

Quartette . . . . . Ex-Federal and Ex-Confederates.

Short Addresses . . . . . Ex-Federal and Ex-Confederates.

Music . . . . . Band.

Fancy Girls Rule.

Some fine leaf tobacco was sold at our market this week and price . . . . .

Some boughs . . . . . brought \$12.50 and a number of them were sold for \$9 to \$11. Over 200 hicks were sold, there being but few rejections. For good leaf, well ordered, the prices were quite satisfactory, but common leaf and lugs, in bad order were low, and where there was a rejection it was on this class. The tobacco and the credit to which indications are flattering for this year to have largely increased sales over former year. The loose market is also active, but no quotations are available.

Twenty-five Dollars in Fines.

Business in the police court was brisk yesterday morning, and over \$50 in fines were assessed against different parties. Mattie Lorian, col., was fined \$15 and costs for keeping a house of prostitution. Mrs. Lorian, col., was also fined \$15 and costs for an offense. The two live in the same house. A fine of \$5 and costs was assessed against each of two visitors to said house, and a \$15 fine was also booked against one of them for promenading with a woman of ill-fame.

An Assured Success.

We are glad to say that the Opera House is an assured success in

every particular. With pretty costumes, pretty girls, pretty music and musical talent culled from the ranks

of artists of first class standing the

public will have presented to them on April 23rd the most complete performance, both musically and artistically, that has ever been held up to

witness. At the small price of admission—fifty cents we predict the

Opera House will not even afford standing room on the night of the performance.

A Steamer Sinks.

The steamer I. T. Rhea sunk near

Cartersville on the Cumberland river,

Tuesday, and a number of sheep and

goats were drowned and nearly all the

cargo was lost. A party of young

people, of Nashville, were on board, and were saved. The boat was driven

against the rocks by heavy winds and was a total wreck.

Died in a Fit.

Lucy Smith, an old colored woman, was taken with a fit at her home on First street last Tuesday evening.

She was 60 years old and had been lame

to epilepsy for several years, but recently she had been in better health and her "spells" had not been so severe.

She had had to see a neighbor Tuesday afternoon and on returning home was taken with a violent

spasm and died almost immediately.

Lucy Smith was a widow, and

had no children, and had been

dependent upon her husband for

support. She had no relatives in the

city, and was buried in the cemetery.

## ABOUT QUEEN VICTORIA.

Three Stories Tell An Interesting Chapter in English History.

For many years after her husband's death Queen Victoria would never consent to be photographed, save in very inconspicuous trim and with the prince consort's bust on portrait well in sight. Mrs. Fane, the Queen's maid of honor, and older, her majesty to-day sits for artists, and some of her favorite jewels and lace have thus become well known to the public. The bust of the deceased monarchs, however, the sovereign's head and chest on the Jubilee coinage may be recognized as studies from actual jewels much beloved by her majesty. She has, however, had a hard time of it with outsiders when coins were first issued, but he was simply compensated by eulogists falling from royal and imperial lips upon the charming way he had rendered that favorite necklace, brooch, and earnings.

The Queen's money from the state is all paid up to the last cent by the 31st of the month, and so are all the annuities that are granted to the prince of Wales and the other members of the royal family. And Coutts', the bankers, are the only persons who keep the royal account up to stand. The \$50,000 a year allowed for the children of the prince of Wales remains at the same amount as it was before the death of the duke of Clarence, and this money will continue to be paid till six months after her majesty's demise.

On each anniversary—i.e., the wedding anniversary of the queen—the anniversary of her majesty's birth, the portrait of her majesty is brought into the dining room and decorated with white silk roses. In this painting the queen's mother is shown to be the Queen of Scotland, mistress of the robes, shown to great advantage. The curtain also appears near the queen's shoulder, held at the bottom by a state officer. The curtain or curtain is the pointed sword of King Edward the Confessor, considered as emblematic sign of merit, and in the left hand background is the figure of the two ever-burning tapers on the altar of the Chapel Royal, St. James, which were blown out by the archbishops of Canterbury and York immediately after the accession. The candles were unextinguished, and will not be lighted again until required for a sacred ceremony, which, we trust, will not take place until all the young society people of to-day are bald-headed and have to wear wigs.

FARMERS IN CUBA.

Mostly All but the Owners of Great Estates Are Absolutely Poor.

Between the condition of the planter and that of all other agriculturists whatever in Cuba the widest difference exists. The laborer has nothing, never has had anything, and never will have anything. The small farmer, the owner of a few acres, is the most abjectly poverty-stricken of the soil that I have ever seen. He lives in the most abject condition known to civilized man, a hut made of the bark of the palm tree. Beside it the adobe dwelling of the Mexican is a little better, but still poor. There is neither window nor chimney; in this family live like cattle, subsisting upon the poorest of food, as most that the soil produces must go to pay the rent. One can see a slave less of the knowledge of clothes than 6 or 8 years old. Books, education, the world, are things of which they have never even dreamt. The teacher there is an intermediate group. Between these people and the planters is a small continent, i.e., of thirty farmers. Here and there through the country may be seen a few dwellers with red tile roof that marks the home of one who by some rare enterprise has become possessed of enough land to engage in cattle raising or fruit growing. But the prominent, foreboding middle-class farmer conspicuous by his absence, says James Knapp Reeve in Lipincott's Magazine, "is the man who, in such middle class, and because the country people are either the owners of great estates or else abjectly poor, that it is quite natural to speak of Cuba as a rich country, and it can be so while the present conditions exist. But with such a combination of soil and climate as she possesses, the island is capable of great things. Money and enterprise are needed for the development of its resources, and these are not likely to be forthcoming while the present social and political conditions remain. The island is destined, as far as American enterprise, as freely as our own territory is, a decade would suffice for the working of great changes."

QUEEN VICTORIA'S PRIVATE SECRETARY.

He Is Nothing More than a Mere Stock-broker's Son.

Sir Fleetwood Isham Edwards is the only member of the household of the queen who is a bourgeois pure and simple. As a rule, Victoria's confidential advisers are of aristocratic or distinguished military connections. Sir F. is the son of a man of a stock-broker, who lived and died, and was buried at Harrow, where some five and thirty years ago he had three sons in the school belonging to the then somewhat obscure school of Harrow. He entered under Dr. Vaughan, and left under Dr. Vaughan in 1858, and obtained a commission in the Engineers in 1861. In 1863 he became a colonel, and was attached to the spiritual embassy, that he gained the favor of that best of judges of men, the earl of Beaconsfield. Through him he was brought to the queen's notice, and in the year of the congress of 1870 he became assistant private secretary and keeper of the privy purse. Since then he has gone on to become to the Queen. This is of perfection, always well dressed and well demeanored, he has about him something of the martinet, which seems almost insuperable for the successful acquisition of men unversed in the highest quarter of the realm. He has a brother, also a soldier-secretary, Col. C. C. Edwards, private secretary to Earl Fitzwilliam.

Another Illusion Gone.

Those who may have hitherto believed that the bulk of the female sex were unattractive should make a note of the fact that only one woman in the Colorado legislature has refused to be photographed in a group, and that member, also, was a woman.

## LADIES

You are cordially invited to attend the Leader's opening

Wednesday, April 3,

At 9:30 a. m.

Our opening will continue for a week, thereby giving Ladies at a distance a chance to see the beautiful display of Handsome pattern Hats and Bonnets.

## We Make

no comment on these goods. They must be seen to be appreciated. Miss Ida Allen, Miss Ada Kennedy and Miss Julia Venable are connected with the Leader and will be pleased to see their many friends.

## THE LEADER,

Mme. Fleurette Mgr.

Easter Opening of  
FINE MILLINERY  
PALACE, APRIL 3, 4, 5, 6.

A cordial invitation extended to all. Ladies you should not fail to see the imported Hats and Bonnets, these are strictly imported goods, no sham. For style and beauty they are not surpassed by any City. My prices are in keeping the hard times. My motto to please. Lowest prices, and latest styles. Office 229 South Main Street.

## ANNOUNCEMENT.

W. A. HARRIS, COUNSELOR AT LAW,  
JUDGE JOHN PHELPS  
as a candidate for Circuit Court Judge in this  
district, subject to the action of the Demo-  
cratic party. Election November 5, 1895.Maj. John Phelps, of this city, is  
announced by authority to day as a  
Democratic candidate for circuit court  
judge at the ensuing election. Maj.  
Phelps has frequently presided as  
judge pro tem and displayed unusual  
fitness for the position. He has had  
long and successful experience at the  
best bar in the district, is a fine judge of  
law, has a well trained legal mind and is  
capable of discharging the duties  
of the office in an able and  
acceptable manner. It has been more  
than 30 years since Christian county  
had the judgeship and as fully half  
of the business of the district is trans-  
acted here, it is proper that Christian  
should have the nomination this time.  
Unless there should be other local  
candidates Maj. Phelps will of course  
carry this county without a contest  
and would need only three more votes  
to secure the nomination.

The Murray Ledger of this week  
says: "The circuit judge's race will  
soon be made up. We have the first  
announcement to day and more will  
follow soon, from 'bofe sides de  
creek.' While Judge T. P. Cook has  
not formally declared himself it is  
generally known that he will be in  
the race, and we are reliably informed  
that his announcement will appear  
in the papers next week or the week  
following. It's going to be a pretty  
and interesting fight."

Rev. Lansing, a Boston preacher,  
accused President Cleveland of being  
a drunkard and when Grover heard  
of it he called the minister a liar.  
There was much discussion in the  
parers and Rev. Lansing finally made  
a public retraction of the charge.

The Republicans are likely to ex-  
change the eagle for the elephant as  
a party device when they hold their  
convention next month. There is too  
much of a reference to an allusion in  
the suggestion to make the coat the  
voting emblem.

Ask any traveling man and he will  
tell you that Hopkinsville is one of  
the best and most prosperous cities  
in Kentucky. Good Democratic gov-  
ernment has done much for the me-  
tropolis of Southern Kentucky within  
the last five years.

Gov. J. H. Marill, of Delaware, died  
this week and the speaker of the  
Senate W. T. Watson, has taken the oath  
as governor. Senator Records, Dem.,  
was elected speaker of the Senate.  
The deadlock in the senatorial elec-  
tion still continues.

Joplin finally came out on top in  
the fight over the Elizabethan post-  
office. The president has again ap-  
pointed him to succeed Mr. Helm. A  
recess appointment lasts until action  
is taken by the next senate.

Ed. Whitemore, of the Grand  
Rivers Herald, rises to vote for the  
Atlanta excursion. See here, young  
man, didn't you see enough on that  
Chicago trip?

Judge M. D. Brown is at home from  
another trip in the interest of his  
candidacy for lieutenant governor.  
He is very sanguine of success, but  
will continue an active canvass until  
the convention.

Gen. Wm. Mahone, once regarded  
as one of the richest men in Virginia,  
has made an assignment and will not  
pay out.

The Democrats carried some of the  
smaller cities in the municipal elec-  
tions in New Jersey Tuesday.

Gov. Clarke cannot now expecto-  
rate as one of the great men of Ar-  
kansas.

Silver continues to advance about  
one cent per week.

The press boys are all pleased with  
the proposed Atlanta trip.

## WITH INTENT TO PLEASE.

"Why has Senator quit going to  
church?" Is he out with the new min-  
ister?" "Yes, he doesn't like his ser-  
mons; he keeps everybody awake."

Flopys—Do you suppose Scribble  
gets paid for his jokes? Flopys—He  
certainly must. They show of them-  
selves that they can't be written for  
nothing.

"I wonder," panted the turkey,  
glancing hastily over his shoulder at  
the pursuing farmer—"I wonder  
whether he wants to get ahead of me  
or abreast of me."

Mistris—I think you handle those  
fine chinches very carefully. Domestic—Don't worry, mump. They are  
so small that they won't hurt even  
if I drop them in my pocket.

Husband—Oh, give me a kiss! You  
remind me of a parrot. Wife—Why?

Husband—Not at all; because you  
remind me of a parrot. Wife—Why?

"There is no doubt," said Mr. Dolan,  
"that these 'bein' wan great advan-  
tages to the business in this country."  
"Ain' phawt that?" inquired Mrs.  
Dolan. "It saves you the groce a' a  
steampship ticket over."

Philosopher—The only thing that  
can make any man rich or poor, per-  
fectly happy, is love, and love costs  
not a penny. Practise Man—True,  
but keeping the loved on in clothes  
costs a lot of silver.

Dillaway—Well, about your aristocratic  
descent! Why my father often  
had 10,000 men directly under him.  
Caraway—Ah! a general! Dillaway—  
Well, not exactly. Caraway—A  
whole-some contractor! Dillaway—No;  
an serpent.

"Why?" asked the philosopher,  
"because it is that which the noblest  
creatures object to—why is it that a  
man should have such doubts of his ability  
to win a woman's affection, when he  
considers the success in that line of a  
pop-eyed, pudding-shaped, pretzel-  
tailed pup dog?" But the assembled  
listeners answered him not.

Clerk—I am to be married shortly.  
Cordial—I am to be married shortly.  
Cordial—To increase my salary a  
little. Every man does it, I suppose.  
Really. But I tell you what I'll do,  
my boy. I'll shorten your hours during  
the first three months, so that you  
can spend your evenings at home, and  
after that I'll lengthen them again,  
so that you will have an excuse  
to get away."

SHORT SELECTIONS.

In the monasteries of Mount Athos  
priests never cease, even in winter,  
living each other every two hours.

A lady bicyclist of Sydney, Mrs. E.  
Maddock, in company with her  
husband, has taken a 600-mile spin,  
covering the distance in nine days.

Statistics have been gathered East and  
West showing the proportion of  
women to men in the churches. It  
averages about two to one—the pro-  
portion that has been recognized for  
a long time."

May 15, 1895

There will be sold at public auction  
210 desirable town lots in Kuttawa,  
Lyon county, Ky. Terms—1¢ cash,  
balance in fiveequal yearly payments.

The bid opportunity ever offered  
for investment or investment. For further  
information address Sam C. Molloy,  
agent for Chas. Anderson, Kuttawa,  
Ky.

The American Harrow Co. have  
just received two car loads of culti-  
vators.

DEATHS.

Warre.—Mrs. J. S. White, of Cera-  
lean Springs, died Tuesday, after a  
long illness.

CABANIS.—Dr. T. E. Cabanis,  
whose leg was broken last week, near  
Clarksville, died Monday of lockjaw.  
He was 38 years old.

NOTICE TO FARMERS.

Before buying a cultivator farmers  
should see the New American operate  
It is simple of construction, easy to  
adjust and operate; light of draft and  
made of the best material. It is econ-  
omy to buy the New American, be-  
cause it is the best cultivator on the  
market, it is an excellent hard ground  
cultivator and puller. American  
Harrow Company, has two lots at  
Hopkinsville, Ky., and we have on  
hand two carloads of these combined  
cultivators, which we will be glad to  
exhibit and test to every farmer in  
the country.

C. K. KELLOGG, foreman for Ameri-  
can Harrow Co., Detroit, Mich.

GENTLEMEN—I bought one of your  
American Harrow Co., Detroit, Mich.

—I bought one of your New  
American cultivator and harrows,  
and from the test already made I be-  
lieve it to be the best cultivator I ever  
saw, and as a harrow for hard  
ground nothing equals it. It is  
also excellent for puller soil.

Yours truly,

T. L. GRAHAM,  
American Harrow Co., Detroit, Mich.

DEAR SIS—Your Mr. A. L. Kel-  
logg put up, operated and sold me  
one of your New American cultivator  
and harrows combined. Have had  
six months to test it and it is a  
cultivator and farm implement and  
after a thorough test and careful ex-  
amination, I am prepared to say it is  
the most perfect tool of the kind I  
have ever seen. It is well and strongly  
built, simple in construction, and  
is easily handled, and is under  
thorough control of the operator at  
all times. I am now very capable  
of handling a team can operate one as  
well as the strongest man.

Respectfully,

J. B. WALKER,  
April 8th, 1895.

Silver continues to advance about  
one cent per week.

Respectfully,

J. B. WALKER.

April 8th, 1895.

The press boys are all pleased with  
the proposed Atlanta trip.

## The Only

Great and thoroughly re-  
liable building-up medicine,  
nerve tonic, vitalizer and

Blood  
Purifier

Before the people today, and  
which stands preeminently  
above all other medicines, is

HOOD'S  
Sarsaparilla

It has won its hold upon the  
hearts of the people by its  
own absolute intrinsic merit.  
It is not what we say, but  
what Hood's Sarsaparilla  
does that tells the story:

## Hood's Cures

Even when all other preparations  
fail.

I was taken ill in a pain in my right  
side while walking in my line  
and was so weak I could not get out  
in running sores in seven different  
places. Since I have used Hood's Sar-  
saparilla the sores have healed and I  
have gained fifteen pounds in weight."

JONES HARRIS, Prestonsburg, Ky.

## Get HOOD'S

Hood's Pills are tasteless, mild effec-  
tive. All druggists. 25c.

## TOBACCO NEWS.

3 40, 3 80, 3 50, 3 10, 3 00, 3 25,

2 95.

5 hds. com. lugs, \$2 50, 2 50, 2 00,

1 00, 1 75.

Our market was firm on good  
leaf this week also on fat lug.

Common leaf and soft tobacco  
was dull and hard to sell even at low  
prices. There is fully forty per cent  
of this crop that is of greenish color,  
and such tobaccos the planter and  
dealers should allow to sweat before  
they are allowed to sell. Much of this  
useful styles of tobacco and will be  
taken at remunerative prices, but if  
marketed and sold in its present condition  
it will hardly bring enough to pay  
the cost of production. Therefore,  
we advise all of our friends to  
prize the greenish tobacco in good  
keeping and offer it to the market.

Yours truly,

RAGSDALE, COOPER & CO.

Springdale, Ohio.

AROUND AND ABOUT.  
NOTHING BUT NEWS FOUND IN THIS COLUMN.

A Condensed Account of the Latest Happenings, Tidily Told for Busy Readers.

The Louisville Star has this to say of the display of Nanz & Neuner at the recent flower show: "Language fails the writer when it comes to the task of describing the large exhibit of Messrs. Nanz & Neuner, the leading florists. Their display was the product of the largest nurseries in the state, situated at St. Matthews, Ky. The display generally and separately was one of the best at the show. Their cut flowers were superb specimens, especially the white La France, Camellia, Monet, Rose, and many others. Among the Begonias and Marceau Neil, this collection of potted plants was also a notable one containing many magnificent specimens. Messrs. Nanz & Neuner are the largest growers in the state, and their customers in the South are numbered by the thousand who buy their plants and seeds from them every year."

Gen. T. A. Harris died Tuesday morning at his home, Locust Grove, above Pewee Valley. He had been critically ill for some time and the end came suddenly. He leaves a wife and son. He was sent from Missouri as a member of the Confederate congress, in which he distinguished himself as an able speaker. Just after the war he was editor of the New Orleans Times-Democrat, and did much to build up the paper. He was assistant secretary of state in Kentucky during the administration of Gov. Blackford.

THE nationally awaited decision of the United States supreme court in the income tax case was rendered Monday by Chief Justice Fuller. The court knocked out the law so far as it taxed incomes derived from rents and also from state, county and municipal bonds. By a tie vote of the court the law was sustained in other respects.

Mrs. Henry Burgess, of Hebron, Ind., who has been unable to take nourishment or form a dry stool for a day now, died this evening. She only drank a cupful of water. Before she was sick she weighed 180 pounds, and at her death only 65 pounds. Her case baffled all the skill of physicians.

Gov. Clark of Arkansas, and Rep. representative Jones sat in each other's face one day this week and the Governor tried to draw a gun. The row was over the charge of bribery in the legislature, which Jones claimed the governor instigated.

Ex-Gov. James L. Kemper, of Virginia, died Sunday of heart trouble, aged 72 years. He commanded a brigade in Pickett's division of the confederate army during the civil war and was a lawyer of the highest class.

Ras Phelps, of Bowling Green, was caught in the act of horse stealing and sentenced for trial. Phelps was indicted in 1888 for horse stealing, but fled and has been at large for seven years. He is now in jail and will be tried at the next term of circuit court.

The Board of Equalization will give a hearing April 13 to delegations from Christian and Warren; on the 19th to Calloway and Davies; on the 24th to Trigg, McCracken and Webster.

The Kentucky Knights of Honor are in state convention at Louisville this week. The president of J. A. Demorest, founder of the order, was unable to attend at Cave Hill.

The receiver of the O. V. railroad reports for the month of February total receipts \$27,740.73, total expenditures \$20,102.50, net profits \$7,638.23.

Jacob Swenfurther, the Rockford, Ill., "Messiah," is being sued by a husband for \$50,000 for alienating the affections of the wife, who entered Swenfurther's "Heaven."

Twenty-three out of twenty-five miners working underground at Whatcom, Wash., were killed by an explosion of gas gas.

W. Jennings Demorest, the well-known New York Prohibitionist, is dead after a week's illness. He was proprietor of Demorest's Magazine.

The five Seventh Day Adventists convicted and jailed in Rhea county, Tenn., for working on Sunday have been pardoned by Gov. Turner.

The whisky trust has reduced the price of liquor two cents a gallon, but the decline will be hardly perceptible in a fifteen-cent drink.

Wm. Meade was killed and James Collier perhaps fatally injured by a falling tree in a mountain county.

Miss Faithful Higgins has willed 200 acres of Mason county land to the Christian church of Kentucky.

The Clarksville chain gang is not at work on the Port Royal road, several miles from the village.

An eight-months-old infant of Mrs. Niumrod Lang was burned to death while alone in the house, near Paducah.

Apache Indians are on the war-path in Arizona. White people are alarmed.

W. O. Wear has started the Calloway News at Murray.

The Auburn Advocate, with Jno. B. Gaines as editor, will appear next Saturday.

Hugh Mulholland on trial at Paducah for forgery, was acquitted.

## HERE AND THERE.

In our last issue we gave space to the report of Miss Katie McDaniel, county superintendent, made to the fiscal court. The report contained so much information about the schools of the county that it was given in its entirety. It contained blank spaces for the number of pupils present on days of visit and the number of recitations heard. These blanks should have been filled with 4,389 pupils and 731 recitations. As stated in her former report the superintendent's office has been repaired and refurnished throughout until it is now as neat as a new pin. The desks, carpets, and chairs are all new and the visitor would scarcely recognize the dingy old room in the present bright and cozy apartment.

Moths balls at Armitstead's.

Miss Hattie Brasher, of this city, who went to Prof. Draughon's school at Nashville about fourteen months ago, has made quite a success in the line of her studies. She is not only a good bookkeeper, but an expert stenographer and typewriter. Last year she secured a position at the Nicholson Hotel, that paid her well and for the last several months has been employed by the legislative investigating committee at \$5 a day. She has been enabled to secure these lucrative positions through the aid and influence of Prof. Draughon, who guarantees positions to all his graduates.

Dr. E. N. Fruitt, Dentist, office over City Bank, Hopkinsville, Ky.

Dr. Sam J. Baker, specialist in diseases of Eye, Ear, Throat, and Nose, Eyes made free. Spectacles furnished. Office over Wallace & Taliaferro's drug store. Lady attendant. Hours 9 to 4.

POWERS will give his last lecture for the season. There will be no complimentary tickets issued for this lecture, as we have issued over 400 this season.

W. W. Ware, Pres.

Don't fail to hear Leland L. Powers, the great impersonator of characters at the tabernacle Wednesday, 17. Admission 50 cents, children 25.

Moths balls at Armitstead's.

Dr. A. P. Campbell has resumed his practice and also has secured the right to extract teeth by the painless process. Office over Bassett & Co.\*

The grand open concert at Cook's Park, Evansville occurs Sunday afternoon, April 28th. Several from this city will attend.

**FOR RENT** on South Virginia street a desirable place of 8 rooms, large yard and garden and all kinds of fruit. W. W. Ware.

Why buy inferior farm implements when you can get the New American.

The Baptist church has for sale a large church organ in good condition for about \$600 and can be had for \$100. It is the one used before the pipe organ was bought. Call on Bailey Waller and see it.

In the fourth week of March the earnings of the L. & N. Railroad Company amounted to \$526,293, which was a decrease of \$24,374 from the corresponding week of last year. For the entire month of March the earnings were \$1,506,290, a decrease of \$62,209 as compared with March 1894.

The New American is the best corn and tobacco cultivator yet made.

Read the advertisement of Mr. T. L. Graham's breeding stock in another column. His horse and jock are both first-class animals.

Before buying a cultivator farmers should see the New American.

A representative of the Evansville Courier was in the city this week selling the 50 cent edition of Coin's Financial School. Many copies were disposed of.

Fun insect powder at Armitstead's.

Front & Scales is the name of a new Clarksville law firm.

Hopson Bros., of Hopson, Ky., have opened a branch store at Wallonia, and Mr. W. J. Hopson will have charge of the latter stock.

Fresh flower seeds at Armitstead's.

Elder Madison Wright, of Nashville, will preach at Hille's Chapel Sunday.

The Hopkinsville Steam Laundry has just received a patent lace curtain stretcher and lace curtains can be laundered equal to new. 50 cents per pair.

Hopkinsville Steam Dye Works has an experienced dyer and can give you a good work in cleaning and dying as you can get anywhere. Call and get prices.

Hopkinsville Steam Laundry does work for thousands in Tennessee and Kentucky, can we not do yours? All orders receive prompt attention, and satisfaction guaranteed.

Mrs. A. M. Wallis has bought out the laundry of Mr. C. No. 211 South Main street. Mr. Allan M. Wallis will have charge of his friends and will be glad to have his friends call and see him. He promises the freshest goods, lowest prices and prompt delivery.

Vitalia, double strength, for sale by druggists.

Diamond dyes at Armitstead's.

For a hard ground harrow, a sod pulverizer and for rebreaking tobacco ground the New American is indispensable.

Good crowds have been in the city every day this week and the merchants are having a nice spring trade.

## Business Opportunity

The Hopkinsville Hotel Co. offers at very reasonable rent three beautiful store rooms under "Hotel Latham," located in the business center of Hopkinsville, Ky., a growing flourishing city of 8,000 people.

This is the finest building in the place, and the store rooms are very attractive, well lighted, heated by steam, have gas and electricity and are suitable for dry goods, merchant tailoring, gentlemen's furnishing goods, drug store, millinery, &c.

There is a good opening in Hopkinsville, Ky., for a live, first class man in any of these lines of business. Apply to Ira L. Smith, Secretary.

**Flags and Bunting for G. A. R. Decorations at E. Frankel.**

We Are Advertising.

**Pyle & Renshaw.** The old reliable Furniture dealers and undertakers. Up stairs in Henry block Hopkinsville, Ky.

And so Grover has gone a fishing. And so he has been from Japan; still giving China a licking. But we're still at the same old stand. If you doubt it, come and see for yourselves. And examine our shop-made furniture and be astonished at the low prices we are selling it for.

Decorate your store and your residence at a small expense by buying your flags and bunting at E. Frankel's.

Last Monday night burglars broke in W. B. Long's dry goods store and cut into his desk and attempted to break open his safe, in which they were unsuccessful. They, however, carried off a few cigars and a jug of whiskey and a lot of loaf sugar.

These fellows seem to be good judges of liquor, for they carried off a white jug containing W. B. Harper's whiskey, which is the best made. For sale by W. B. Long, Hopkinsville, Ky.

**Flags, Flags for G. A. R.**

Flags and bunting cheap E. Frankel's.

Full supply of Flags and Bunting at E. Frankel's.

Buy your flags early and avoid the rush. Don't put it off until the last moment. I have all sizes and the cheapest. E. Frankel.

Diamond dyes at Armitstead's.

For a hard ground harrow, a sod pulverizer and for rebreaking tobacco ground the New American is indispensable.

Vitalia, double strength, for sale by druggists.

For a hard ground harrow, a sod pulverizer and for rebreaking tobacco ground the New American is indispensable.

Good crowds have been in the city every day this week and the merchants are having a nice spring trade.

## BUGGIES.

Just received a full line of the latest styles in Buggies, Surreys, Phaetons, Traps and Carts ever seen here. Prices to suit the times from \$30.00 to \$150.00.

## HARNESS.

The largest and most complete line in the city, ranging in price from \$5.00 up. Wagon Harness at all prices.

## DEERING BINDERS.

These are hard times but this only makes the farmer more careful in his buying. As a result our Ball Bearing Pony Binder is very much in demand. You only want two good horses to pull this, and they can pull it all day.

## BICYCLES.

Bicycles are now in reach of all. Victor, Columbias, Stearns, Syracuse and Eclipse are the best. Will sell on installments. Have a splendid wheel for \$60.00.

## MAJESTIC RANEKS

makes in home and cure dyspepsia. Get you out early to work and keep you with plenty of hot water day and night. Use Fertilizers, make big crops and rest your soil. Armour, National, Horseshoe, Homestead are the pure brands. We have already sold a car load of Janesville disc cultivators.

**Forbes & Bro.**

## New Spring Goods

WE OPEN

We have opened for inspection our complete assortments of new Spring Goods. Never before have we been able to offer so many inducements in either style, variety or price. . . .

## Bran New Patterns

That cannot be found at any other house in the city. Don't wait for the Spring rush. See our goods and get prices. . . .

## Carpets.

Reliable Maes. Only those maes which we can guarantee are allowed in our stock. Any pattern you select will be first-class. . . .

**C. M. LATHAM**

## Novelties

We have the most complete line of

**Junior's** aged 3 to 7 years, nicely trimmed and Braided, \$1.50 to 5.00

**Reefer's** aged 3 to 8 years, beautifully made and trimmed, \$1.50 to 5.00

**Suits** ages 4 to 15 years, all \$2.00 to 6.50  
wool, never-rip-seam

**STAR-WAISTS** best on earth, seam and buttons warranted 50 to \$1.25

Hyperion-Windsor, the latest New York Craze. Yatch, Tennis and Bicycle Caps, Sweaters and Bicycle Hose.

**COX & BOULWARE.**

**WORLD'S PROGRESS**

United States Mail Bags to Be Transmitted on Electric Trolley Wires—A Novel Ship Armor—New Method of Cleaning Clothes.

**T**HINK OF THE mails being shot at almost lightning speed over the roofs of Chicago. That's what Rich. C. Sherman says can be done and Postmaster Heising is holding a hearing before the Chicago Tribune. If the weather ever moderates Mr. Sherman expects to have his scheme adopted within two weeks. If the experiment a success the possibilities of the scheme will be large in the direction of improving the city and suburban mail collection and delivery of the transportation of mails to and from the post office to the railway stations. It is within the scope of possibility that within a few months Heising says that all the mail wagon service may be abandoned and overhead electric carriers substituted. The scheme is the invention of Richard E. Smith of Chicago. The plan is to carry mails through the air over the tops of buildings by means of electric cars traveling on a wire cable. The inventor has had developed a new principle of harnessing the electric current without the use of a return wire. He desires to explain the peculiarity of his motor, which, he says, does away with the need of a battery or wire or storage batteries. He has succeeded in convincing the postal authorities that his plan is practical, and all is ready for the experiment to be put in operation as soon as the weather modulates enough to permit its construction. Permission was granted by the court of appeals Monday night to start a wire cable across the government building to the Illinois Central station at Twelfth street on which the initial tests are to be made. The advantages gained by the use of transportation by air prove a success are many. The greatest argument in its favor is the saving of time. It is said the mail will be transported from the post office to the Twelfth street station in five minutes with the carriers traveling at one-fourth speed. The schedule time for the wagons is now two hours, seven minutes. The inventor says his motor will run at a speed of sixty miles per hour for a distance of 100 miles without attention except to start and stop. The cost of the experiment for a complete line is \$250 a mile. If the experimental line works satisfactorily the postal authorities say lines will be built to all substations and suburban stations. It is the inventor's opinion that the same service may be eventually extended between the larger cities. This scheme, however, is not so near in the future as the suburban plan, as the question of safety of the mails in transit would arise.

**Street Car Transfers in Baltimore.**  
The transfer system on the street cars in Baltimore has grown since its introduction in 1882, and free transfers are now issued at some forty different points; in some cases it is possible to make a single fare. As a rule in any city transfers are confined to different lines of one company; but at a crossing of the Lake Shore Electric and the Lake Erie lines transfers are given from one to the other. A station is located at the junction and an agent provides the transferring passenger with a ticket. The agent is responsible for the safety of the two companies meet, exchange coupons and divide equally the residue of fare collected by one company over the other. It is a simple arrangement, and has resulted in greatly increasing the traffic of both roads.

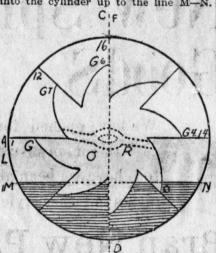

**How to Clean Clothes.**  
The American Analyst tells how to do it as follows: Take, for instance, a garment of cotton or part cotton, of broadcloth, cassimere, or silk. The scouer makes a strong, warm soapsuds and plunges the garment into it, soaks it up and down, runs the dirt particles through it for a second or second time; then rinses it through several waters and hangs it up to dry on the line. When nearly dry he takes a iron, runs it up for a few moments, then presses it. An old cotton cloth laid on the outside of the coat and the iron passed over that until the wrinkles are out. Then the iron is laid before the garment goes back into the suds, else they would be shiny. Wrinkles, if any, are removed by laying a wet white cloth over them, and passing the iron over them. Any wrinkles as seen, they are treated as wrinkles—the iron is lifted while the full cloud of suds rises and brings the wrinkles with it. Clean sheets always have made especially for the purpose of that which has been used for white cotton or woolen clothes will be left in the water and will cling to the cloth.

These sheets have been woven of the same coat and trousers to have time and time again, and have all the look and feel of new garments. Good soap, warm water, clean clothes will bear many washings and look better every time because of them.

which is free to rise within this space to the crown of the ship, some distance below the water line. The armor below that point is therefore to be of the nature of a shield, partially detached from the body of the ship and extended at some distance from its real sides. The armor in the ship therefore will consist of independent of the two outer thicknesses, B and A. The Inventor's specifications of his patent go no further than the device, which is a new construction of armor, and he does not elucidate many points commented upon by some naval experts who were asked for their opinion on the device. Whether the new construction of armor is to be used on the surface of the ship, mainly by a belt of armor plate extending three-fourths of the vessel's length and only a short distance above and below the water line, or whether it is to be used on the hull itself over the whole vessel, from bulkheads to bottom. Such a amount of armor would, it is suggested, be altogether too great a weight for the ship to carry. The provision is made for light and airy air for working rooms from any of the lower decks. It is suggested that some such scheme of the ship's working rooms be adopted to passenger steamers, especially if the spaces the skins were filled with cellulose or some such material as would act to close up a break made by collision.

**Clock Without Wheels.**

A mysterious clock was found in a private collection by Director Davy of the Observatory of Marseilles, France, and dates from the time of Henry II, and is described in a treatise on clocks published in the seventeenth century by Father Alexander, a Benedictine monk. The clock on the outside of the case is a little wooden cabin on the right side. Figures are carved along the edge in a vertical line, representing the hours from 5 a. m. to 12 midnight. A small wheel is attached to the end of the axis and is supported by two pieces of string and by turning the cylinder up the two pieces of string will roll up the rod. The interior of the cylinder is divided into four compartments of even size. These compartments communicate with very small apertures—1, II, III, etc., which correspond to the hours and the minutes. The cylinder is closed at the top. A specially prepared fluid is filled into the cylinder up to the line M—N.

When the cylinder is rolled up and the fluid allowed to settle, the cylinder will not fall down, but work its way down the cylinder. The cylinder is then slowly filled and emptied in that slow-moving motion, and the rod on the outside shows the time as the downward motion of the cylinder proceeds.

**How to Clean Clothes.**  
The American Analyst tells how to do it as follows: Take, for instance, a garment of cotton or part cotton, of broadcloth, cassimere, or silk. The scouer makes a strong, warm soapsuds and plunges the garment into it, soaks it up and down, runs the dirt particles through it for a second or second time; then rinses it through several waters and hangs it up to dry on the line. When nearly dry he takes a iron, runs it up for a few moments, then presses it. An old cotton cloth laid on the outside of the coat and the iron passed over that until the wrinkles are out. Then the iron is laid before the garment goes back into the suds, else they would be shiny. Wrinkles, if any, are removed by laying a wet white cloth over them, and passing the iron over them. Any wrinkles as seen, they are treated as wrinkles—the iron is lifted while the full cloud of suds rises and brings the wrinkles with it. Clean sheets always have made especially for the purpose of that which has been used for white cotton or woolen clothes will be left in the water and will cling to the cloth.

These sheets have been woven of the same coat and trousers to have time and time again, and have all the look and feel of new garments. Good soap, warm water, clean clothes will bear many washings and look better every time because of them.

**Decomposition of Glass by Water.**

From a long series of experiments of his on decomposing glass and from the work of others, the author draws the following conclusion: (1) The weathering of glass is caused by the decomposing action of the atmospheric moisture. (2) The weathering of the air does not act directly on the glass, but only on the alkaline products of the aqueous decomposition. (3) Dry carbonic acid is without action on glass. (4) The action of water on weathered glass is only temporary more rapid than it is on new glass. (5) The surface changes caused by weathering are comparatively slow with glass.

The action of water on weathered glass is the structural skin of the vessel, and water is similar processes and are both preceded by the taking up of water into the glass molecule. (6) The surface changes caused by weathering are comparatively slow with glass.

The action of water on weathered glass is only temporarily more rapid than it is on new glass. (7) The glass lime which would be divided into water-tight compartments throughout the length of the ship. The third skin, A, is the structural skin of the vessel, and between it and the second skin would be more water-tight compartments. The two outer skins are disconnected from the third skin, or the real structure of the ship, below the lowest deck, and the space between is open to the water.

**How to Clean Clothes.**

The outer skin is the armor, composed of the heavy armor plating, the framework D, backing E, and the inner lining F, the whole forming one main outer thickness or skin. The next skin, G, is the structural skin of the vessel, and between it and the second skin would be more water-tight compartments. The two outer skins are disconnected from the third skin, or the real structure of the ship, below the lowest deck, and the space between is open to the water.

**Quite a Difference.**  
Know, in—*I say, doctor, tell me what the difference is between the grip and the grip?*—The grip (in confidential tones).—The doctors don't call it a grip—*What is it?*—Buffalo Courier.

**How to Clean Clothes.**

The outer skin is the armor, composed of the heavy armor plating, the framework D, backing E, and the inner lining F, the whole forming one main outer thickness or skin. The next skin, G, is the structural skin of the vessel, and between it and the second skin would be more water-tight compartments. The two outer skins are disconnected from the third skin, or the real structure of the ship, below the lowest deck, and the space between is open to the water.

Mr. John Johnson and wife, of Grayson, are visiting relatives near the city.

Mr. S. S. Lander, of Clarksville Tenn., was in the city yesterday.

### Grange Notice.

There will be a very important discussion by the members of Caskie Grange next Friday, Apr. 19, at 2 o'clock, on the subject of farmers are interested, viz.: Do commercial farmers pay, manner of using etc.

We extend a cordial invitation to all farmers whether members of the order or not to come and participate, the questions will be discussed with open doors.

T. L. LECTURER.

### Stealing Tobacco Canvass.

OAK GROVE, April 9, '95.—The farmers in this section are greatly annoyed by the disappearance of their plant bed canvas. Messrs. T. A. Jones, W. W. McWhorter and W. A. McKenzie are the heavy losers.

There is no way to identify one canvas from another there is no way to get a cue to the rogues. However, if they should catch one they would make it very interesting for him.

### Ravages of the Army Worm.

The much dreaded army worm has made its appearance in Warren county, and the farmers are becoming alarmed, and are making ditches to keep them from spreading over the farm. It is quite an unusual thing for them to appear this early in the season and especially in such large numbers.

### The Evolution

Of medicinal agents is gradually relegating the old-time herbs, pills, draughts and vegetable extracts to the rear and bringing into general use the pleasant and effective liquid laxative, Syrup of Figs. To get the true remedy, see that it is manufactured by the California Figs Syrup Co. only. For sale by all leading druggists.

Take Vitalia Liver Pills.\*

### Morgan Denmark and Monarch.

Brings comfort and important enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to them of the pure liquid laxative principles embodied in the medicine, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refined and highly concentrated properties of a perfect laxative; effectively cleansing the system dispelling colds, headaches and fevers and permanently curing constipation.

It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 200 and 500 dr. bottles, but it is made only in the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

The proposed ALEXANDER 400.
